Outcome Indicators														
1. Percentage of Tactical Units provided to force employers that are in prescribed readiness condition		79%	79%	79%	79%	79%	20%	48%	-	-	-	-31%	The 48% accomplishment for the period represents the 100 tactical units provided to UCs that attained the prescribed Readiness Condition of 83% (Output Indicator Nr 2a), out of the 208 tactical battalions provided to UCs. Meanwhile, the -31% variance represents the 65 tactical units whose REDCON is still below the prescribed rating. The deficiency of the remaining units is generally attributed to the shortfall on thier training readiness, which is expected to improve on the succeeding quarters upon completion of all training programs.	
2. Percentage of Ready Reserve Units in prescribed readiness condition		60%	60%	60%	60%	60%	0%	1%	-	-	-	-59%	As of this period, only one (1) of the 84 Ready Reserve Battalions (RRBNs) maintained has attained the prescribed REDCON of 68% (Output Indicator Nr 2b). This was due to the accomplishment of 28% average training readiness of RRBNs. The restrictions posed by the pandemic continue to hinder the implementation of all training programs for the RRU since it mostly requires physical attendance of reservists.
